We cannot recommend this company enough. We've experienced a phenomenal service from Costello Windows team in Limerick from the word go. The sales team, after service, directors and the fitting teams are exceptional. Even as a self build when things didn't go according to plan they sent an additional fitting team to Meath to assist us and they worked until midnight to ensure our deadline was met due to our own errors. Nothing was any trouble. We missed one window off and they had it to us in lightening speed pulling out all the stops in their factory. The windows are stunningly beautiful. The townhouse sash is everything you would want in a window. They are an incredibly clever design allowing a full fire escape and are of SUPERB quality. Everything received look so much more than we had paid. The budget was tight and we got 5 star windows. Our French doors, panoramic windows, townhouse sashes, and composite stable door and back door were just excellent. So many people comment on them and ask where we bought them. When we called Costello with crazy ideas and requests they made it work with quick responses. A truly 5 ***** company. Don't go anywhere else but here!!!!
